**FRACTIONAL LASER RESURFACING
PLUS A MICROPEEL**

RENAISSANCE FULL FACE SPECIAL

You'll be greeting 2010 with a real sense of renewal when you take advantage of this amazing offer. It combines two procedures for immediate and long-term results.

Fractional resurfacing starts restoring your skin's deepest architecture right away.

MicroPeel whisks away dead cells to reveal the younger, softer, lustrous complexion beneath.

You'll look better right away. Then, during the cold winter months you'll watch your complexion transforming itself from within. Dermal restructuring stimulates the production of collagen – the cushion that keeps your skin rounded and supple. No more "tired" look. The softer, younger you will emerge to greet the springtime.
